July 13-17, 2020

Digital Media Center, Louisiana State University

****Canceled****

LSU's [Digital Media Arts & Engineering program](#) is proud to present our second annual Global Game Jam Next. Join thousands of students from around the world to participate in a game jam creating original creative works. This allows an opportunity for students from ages 12 - 17 to feel what it is like to be a game developer - even if it is just for a week. In this brief time span, creative thinking will be encouraged along with the creation of innovative and experimental games.

Imagine, collaborate, create, develop and surpass your wildest imagination:

- Learn the tricks and techniques used to make modern video games from scratch.
- Use professional tools to produce quick and easy gameplay prototypes.
- Practice scripting, animation, digital art, audio design, level design and game design.
- Help unleash your creative potential to get ideas from your head onto the screen.

Who:

Rising 7th -12th grade students. No experience required. General computer use a plus. Note: Gamemaker Studio 2 software will be used--this is taught at the beginner level. (Do not register for both this and Gamecrash Camp; they are identical in curriculum.

Students will be using GML (Game Maker Language) a C like high level scripting language to create interactive prototypes. The language is simple enough for a child to learn and students are expected to be able to express themselves through scripting and art by the end of the class. The course culminates in a show for friends and family that demonstrates what they have been able to accomplish in a short period of time.

Registration & Cost:

\$155.00 pp. Supplies, lunches and snacks are provided during the camp. Participants are responsible for arranging their own transportation to and from LSU's campus. CCT will accept participants on a first-come, first-serve basis. Limited seats available so register early.

Instructor:

Marc Aubanel, director of the Digital Media Arts & Engineering program at LSU, brings with him 20 years of experience running large global brands and franchises which include FIFA Soccer, NHL Hockey, Need for Speed Underground and Def Jam Vengeance for Electronic Arts. He also co-founded Stage 3 Media in response to an emerging online video marketplace.

Schedule:

9:00 AM - 5:00 PM; two snacks and a lunch will be provided each day.

**Friday afternoon showcase begins at 3:00 PM--parents/family members are invited.

Theme:

The game theme will be announced by the Global Game Jam Next Committee

Location: Room #1034, LSU Digital Media Center. [Map it!](#) For questions or special needs, contact Karen Jones at kjones@lsu.edu.

The [Digital Media Arts & Engineering Program](#) at LSU is dedicated to producing tomorrow's leaders in the digital media arts field. Located in a new state of the art \$29.3 million facility that is shared with Electronic Arts North American Test Center, you can work with a diverse group of digital artists, technicians and researchers who are here to help you develop your ideas into the future of media.
