[Please use this page to register your attendance.](#)

You will receive a link for this online Zoom session by email after you register.

The Brain Science Speaker Series is sponsored by the Center for Computation and Technology at LSU.

Speaker's Bio:

Dr. Lee is an Assistant Professor of Psychology at the University of Michigan and director of the Cognition, Control, and Action Lab. His research focuses on the cognitive and neural processes that contribute to learning, motivation, control, and performance in a variety of contexts, including motor skill learning, expertise, and the phenomenon of "choking" under pressure. Dr. Lee was also recently awarded a Parkinson's Foundation Young Investigator Award to examine influences of cognitive control on motor function in people with Parkinson's Disease.
