

## **Baton Rouge Energy VentureCamp 2016** campers and parents!!

Thank you for choosing to participate in this amazing STEM (science, technology, engineering, and mathematics camp) camp. This camp places an emphasis on how energy affects everything we do and the issues that come with it. We again have a full camp and this year with representation from 19 different schools!!

Teaching energy is perhaps as important as teaching grammar or history. Today's youth is the next generation of leaders and energy users. The more they know, the better prepared they will be to choose energy sources and behaviors that will benefit everyone by creating a sustainable energy future.

Below are a few key points to help you prepare for this summer's program:

- 1) *Wear long pants and closed toe shoes every day.* This is a safety requirement since we have labs planned every day. Jeans and tennis shoes are fine. Long hair must be in a pony tail.
- 2) You can bring cell phones but they will be collected as you walk into the camp and kept safe during instructional time.
- 3) For your convenience we will be uploading the schedule and all other forms pertinent to the camp to our website. <https://www.cct.lsu.edu/energyventurecamp>
- 4) Please bring your liability forms, the medical form, and the BRCC lab safety forms signed with you as you come to the camp (all forms can be found as attachments to this email). **YOU WILL NOT BE ABLE TO ATTEND WITHOUT THESE SIGNED FORMS.** (you can also scan them and email them to me ahead of time- I will give you a receipt email as soon as I receive them)
- 5) We will provide a YETI water bottle :) :) for you to fill with water from the water fountains and stay hydrated through out camp. Baton Rouge is privileged to have one of the best potable water sources in the country!!!

PARENTS and GUESTS, please plan to join us on Friday, July twenty second at 2:30 PM (Shell engineers will come to talk to the campers) and at 3:00 PM final camp presentations/ video at The LSU Petroleum Engineering Research & Technology Transfer Laboratory (**PERTT Lab**). We should finish no later than 4:30.

If you have any questions, do not hesitate to contact us. We hope you have a great camp experience and we look forward to meeting everyone on Monday, July 18th at 8:15 AM Room C131. This is a science lab located in the first floor of the BRCC Cypress building. Pick up time is between 4:45 and 5:00 PM.
