1984 - Macintosh 128k

1985 - Jobs leaves Apple

1985 - Jobs forms NeXT
A quick history of OSX & iOS

1985-1993 - NeXT developed computer, printer, factory, and development tools

1988 - NeXT licenses Objective-C

1990-1996 - NeXTSTEP

1991 - first web server built using NeXTSTEP

1993 - NeXT factory closed, company becomes NeXT Software

1993 - window manager and frameworks renamed to OpenStep
The Xanadu project, codenamed "Rhapsody," Rhapsody will be based initially on the operating system acquired with NeXT, and with a development team of engineers from NeXT, headed by Avadis Tevanian, formerly head of NeXT at NeXT.

It will run on all current Power PC Macintoshes. The initial release for developers includes a full implementation of the operating system, and the user interface also from NeXTSTEP, with minor additions from the Macintosh System 7 interface. The full release of Rhapsody and adaptations of the user interface, will include additional toolkits from Adv.NetInfo.
A quick history of OSX & iOS

Meanwhile

1987 - System Software 5

1990-1996 - declining sales

1995 - started licensing Mac OS to third parties (System Software 7)

1996 - sales dropped from 10% to 3%

1996 - Apple buys NeXT
A quick history of OSX & iOS

1997 - Mac OS 8
1999 - Mac OS 9
Meanwhile Apple has been using OpenStep as the basis of its next operating system (Renamed Cocoa)
1999 - OS X Server 1.0
2001 - iPod Introduced
2006 - Switch to intel
2006 - Objective-C 2.0 Released by Apple
2007 - iPhone Introduced
2010 - iPad Introduced
Timeline of OS X

2001 - 10.0 Cheetah (March)
2001 - 10.1 Puma (September)
2002 - 10.2 Jaguar
2003 - 10.3 Panther
2005 - 10.4 Tiger
2007 - 10.5 Leopard
2009 - 10.6 Snow Leopard
2011 - 10.7 Lion
2012 - 10.8 Mountain Lion

2007 - iOS 1.0
2008 - iOS 2.0
2009 - iOS 3.0
2010 - iOS 4.0
2011 - iOS 5.0
Features of OSX & iOS

Integrated hardware and software
Visually appealing
Quick development
Unity of apps
Secure
Powerful with the Unix underpinnings
Macintosh Computers
MacBook Pro
MacPro
Mac Mini
iMac
iOS Devices
iPhone
iPod Touch

Now starting at $199. It has fun written all over it.
